

Medical Director / Chief of Psychiatry

The Colorado Mental Health Institute at Fort Logan is seeking a BC/BE adult psychiatrist to serve as the Chief of Psychiatry for a 94-bed adult inpatient civil population.

The position provides clinical, administrative, and managerial leadership to oversee all aspects of psychiatric care within a public sector psychiatric inpatient hospital providing for a seriously and persistently mentally ill patient population. Ensures regulatory compliance, supervises staff, and provides direct care to the hospital's patients.

Must have inpatient psychiatric experience, a collaborative and flexible demeanor, and commitment to advocacy for the patient population served. We take great care of a vulnerable patient population and do the right thing. You will work with an excellent team of committed professionals who care deeply about their work and the patients we serve. This is a great opportunity to work in an environment where you will truly make a difference.

Qualified candidates must possess an unrestricted Colorado Medical License, DEA certificate, BLS Certification (American Heart Association for Healthcare Providers), and be willing and able to pass the required drug screen and background check as well as be eligible to practice in a State Institution. Malpractice will be provided.

Interested candidates should email their CV to Margaret.Mason@state.co.us

Principals only, no recruiters please.
