

Staff Psychiatrist

Colorado Mental Health Institute at Fort Logan (CMHIFL) is recruiting for a full-time staff psychiatrist to join our Adult Inpatient Psychiatry Service. CMHIFL is a 94 bed inpatient psychiatric facility that provides excellent psychiatric care to a vulnerable patient population.

We are looking for a psychiatrist who enjoys working in a multidisciplinary team-based setting to deliver compassionate, evidence-based psychiatric care for individuals with mental illness. This is a direct patient care position that provides psychiatric assessment, diagnosis, and treatment of hospitalized patients and leads the coordination of care with members of the treatment team.

Applicants must be eligible for a Colorado physician medical license and be board certified or board eligible with qualifications consistent with an ability to provide inpatient psychiatric care on a multidisciplinary treatment team. Must be comfortable managing hospitalized patients with severe mental illness. Must be able to interact with people of varied educational, socioeconomic and ethnic backgrounds in a tactful and professional manner.

Qualified candidates must possess an unrestricted Colorado Medical License, DEA certificate, BLS Certification (American Heart Association for Healthcare Providers), and be willing and able to pass the required drug screen and background check as well as be eligible to practice in a State Institution. Malpractice will be provided.

Interested candidates should email their CV to Margaret.Mason@state.co.us
